Checklist provided by Knoxville
Chapter of the Tennessee Ornithological Society

Seven Islands State Birding Park Bird Checklist

Over 200 different species have been recorded at Seven Islands since it became a wildlife refuge in 2002. This checklist contains the non-accidental species that can be expected to be seen at the park in any given year.

a-abundant Expected in large numbers
c-common Expected to be seen on all visits
f-frequent Expected to be seen on most visits
o-occasional Expected to be seen on some visits

* Nests locally

S - Spring Mar - May
F - Summer Jun - Aug
F - Fall Sep - Nov
W - Winter Dec - Feb
